

ANNUAL REPORT

YEAR ENDED March 31, 2024

2024

The Akita Bank, Ltd.

Profile

Since its establishment in 1879, The Akita Bank, Ltd., has worked diligently to extend comprehensive financial services geared to the funding requirements of clients in Akita Prefecture. These efforts are underpinned by a philosophy that seeks to contribute to regional prosperity and help the Bank achieve growth as a financial institution in tune with the economic development of the community. The Akita Bank Group, which comprises the Bank and seven consolidated subsidiaries, maintains a full line of financial services and provides guarantee and leasing services hinging on the banking business. Several issues that characterize our operating environment are expanding in scope and taking on a greater urgency in terms of management responses. The key priority is well-balanced approach to expand the profitability of the Bank, and to secure common interest of regional clients. Based on The Akita Bank Group Vision, Create value and connect to the future, the Bank will execute its role as a regional bank, which its network covers the area in eastern Japan and expand our financial services including international operations emphasizing relations with regional clients.

Notes to Consolidated Financial Statements

The Akita Bank, Ltd. and subsidiaries
As of and for the years ended March 31, 2024 and 2023

1. Basis of Presentation of Financial Statements

The accompanying consolidated financial statements of The Akita Bank, Ltd. (the "Bank") and its consolidated subsidiaries are prepared on the basis of accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards, and are compiled from the consolidated financial statements prepared by the Bank as required by the Financial Instruments and Exchange Act of Japan, and the original consolidated financial statements in Japanese language are audited by Deloitte Touche Tohmatsu LLC, the Bank's accounting auditor.

In preparing these consolidated financial statements in English language, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. The amount of net income attributable to owners of parent in these consolidated financial statements after such modification is the same as that in the audited original consolidated financial statements issued domestically.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Bank is incorporated and operates. As permitted by the Financial Instruments and Exchange Act of Japan, amounts of less than one million yen have been rounded down. As a result, the totals shown in the accompanying consolidated financial statements (both in yen and U.S. dollars) do not necessarily agree with the sums of the individual amounts. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan, as a matter of arithmetic computation only, at the rate of ¥151.41 to U.S.\$1.00, the prevailing exchange rate at March 31, 2024. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

In addition, the notes to the consolidated financial statements include information which is not required under accounting principles generally accepted in Japan but is presented herein as additional information.

2. Principles of Consolidation

Consolidated subsidiaries

The consolidated financial statements include the accounts of the Bank and seven of its subsidiaries, including The Akita Guarantee Service Ltd. and others, whose fiscal year end is consistent to that of the Bank. Akigin Capital Partners Co., Ltd. was included in the scope of consolidation from the fiscal year ended March 31, 2024 due to its establishment. All significant intercompany transactions and accounts have been eliminated in consolidation. The consolidated financial statements do not include the accounts of limited partnerships due to insignificance.

3. Summary of Significant Accounting Policies

(a) Trading account securities

Trading account securities are stated at fair value and the cost of securities sold is determined by the moving average method.

(b) Securities

Securities are classified, and accounted for, depending on management's intent, as follows: (1) held-to-maturity debt securities, which are expected to be held to maturity with the positive intent and ability to hold to maturity, are stated at amortized cost computed using the straight-line method and (2) available-for-sale securities are stated at fair value with unrealized holding

gains and losses, net of applicable taxes, reported as valuation difference on available-for-sale securities in a separate component of net assets. Stocks without market price are stated at cost determined using the moving-average cost method.

Securities held in money trusts, of which funds are principally invested in securities and are separately managed from other beneficiaries, are carried at fair value with unrealized holding gains and losses included in earnings.

For available-for-sale securities, in cases where the fair value has fallen significantly from the acquisition price and it is considered there is little likelihood of recovery to the acquisition price level, the Bank considers recognizing a loss on impairment. The Bank considers the decline to be significant when the fair value of the available-for-sale securities declines more than 30% of the carrying amount. When the fair value of the available-for-sale securities declines 50% or more, the securities are stated at fair value on the consolidated balance sheets and the difference between the fair value and the acquisition price is recognized as a loss. When the fair value of the available-for-sale securities declines from 30% to less than 50% of the carrying amount, the Bank recognizes a loss based on the recoverability of the securities after examining the trends of market prices and the financial position of the issuers.

(c) Derivatives

Derivatives are carried at fair value which is based on market quotation.

(d) Premises and equipment

The Bank's depreciation policies are in line with the Corporation Tax Act of Japan. Depreciation is charged using the declining balance method over the estimated useful lives of respective assets. The straight-line method is applied to buildings acquired on or after April 1, 1998 and fixtures and structures acquired on or after April 1, 2016.

The estimated useful lives of major items are as follows:

Buildings:	3–50 years
Others:	3–20 years

Depreciation of premises and equipment owned by consolidated subsidiaries is predominantly charged using the declining balance method over the estimated useful lives of respective assets.

(e) Intangible assets

Intangible assets are amortized using the straight-line method. Cost of software held for internal-use is amortized over its estimated useful life (mainly 5 years).

(f) Leased assets

Leased assets under finance lease transactions that do not transfer ownership are depreciated using the straight-line method over the lease periods as the useful life of assets with zero residual value. The Bank leases mainly peripheral devices and automobiles, included in premises and equipment, and software, included in intangible assets.

(g) Reserve for possible loan losses

Reserve for possible loan losses is provided as follows, in accordance with the following obligors' categories, in conformity with the internal policies regarding write-offs and reserves for possible loan losses.

Normal Obligors:	Obligors whose business conditions are good and financial condition are no particularly problem
Cautious Obligors:	Obligors who have problems with their lending conditions or repayment performance, whose business conditions

Intensive Control Obligors:	are sluggish or unstable, and whose future management requires attention whose all or part of the loans are requiring management (restructured loans and loans that are delinquent for over three months), of the Cautious Obligors
Potential Bankrupt Obligors:	Obligors who are not currently in a situation of bankruptcy, but are recognized as having a significant possibility of falling into bankruptcy in the future
Substantially Bankrupt Obligors:	Obligors in substantially the same situation as bankrupt obligors
Bankrupt Obligors:	Obligors who are legally or formally bankrupt, such as bankruptcy or special liquidation

For loans to Intensive Control Obligors, reserves are maintained using the estimated loss ratio for the next three years. For loans to Normal Obligors and other Cautious Obligors, reserves are maintained using the estimated loss ratio for the next one year. The estimated loss is calculated by obtaining a loss rate based on the average of default experiences during the three periods in the past, using the default experiences for one year or three years as a basis and taking into consideration the estimated future value and other necessary adjustments. In addition, as the Bank judged that the credit risk to obligors belonging to specific industries, such as the accommodation industry, that were significantly affected by the economic impact of COVID-19 pandemic, still remains high, the estimated loss ratio has been adjusted.

For loans to Potential Bankrupt Obligors, the Bank has provided a reserve for possible loan losses calculated first by deducting the expected recovery amount from collateral and guarantee from loans, and then multiplying the remaining amount using the estimated loss ratio for the next three years. The estimated loss is calculated by obtaining a loss rate based on the average of default experiences during the five periods in the past, using the default experiences for three years as a basis and taking into consideration the estimated future value and other necessary adjustments.

For loans to Bankrupt and Substantially Bankrupt Obligors, the Bank has provided a reserve for possible loan losses based on the amount claimed, net of the expected recovery amount from collateral and guarantee.

The Bank applied the DCF method to estimate a reserve for possible loan losses, if future cash flows of principal and interest are reasonably estimated, for (1) loans to Potential Bankrupt Obligors, where the loan balance, net of the amount secured by collateral, exceeds a certain amount and (2) loans to Intensive Control Obligors and their loan balance exceeds a certain amount. Thus, the difference between the amount calculated by discounting future cash flows of principal and interest using the original interest rate of respective loans and its book value is accounted for as reserve for loan losses.

The collectability of all loans is assessed by branches and the credit supervisory division, with an internal audit by the asset review and inspection division, in accordance with the Bank's policies and rules for the self-assessment of asset quality. The audit division audits the results of the assessment.

The consolidated subsidiaries calculate their reserve for possible loan losses as the amount deemed necessary to cover possible losses, which is estimated based on the actual historical loan loss experience in addition to amounts deemed necessary based on estimation of the collectability of specific loans.

(h) Reserve for investment losses

Reserve for investment losses is provided for possible losses at the estimated amounts based on the financial position of securities' issuers.

(i) Reserve for employees' retirement benefits

For the calculation of retirement benefit obligation, the Bank applies the benefit formula basis as the method of attributing expected benefit to period. Unrecognized net actuarial gains and losses are amortized using the straight-line method over the average remaining service period of employees (10 years), commencing from the next fiscal year after incurrence.

The consolidated subsidiaries apply a simplified method to calculate net defined benefit liability and retirement benefit cost.

(j) Reserve for directors' bonuses

Reserve for directors' bonuses is provided as the amount of the estimated bonuses which are attributable to each fiscal year.

(k) Reserve for retirement benefits to directors

Consolidated subsidiaries of the Bank accrue 100% of obligations for their retirement benefits according to the internal rules, which are based under the assumption that all directors terminate their services at the year end.

(l) Reserve for share-based remuneration

Reserve for share-based remuneration is based on the Share Delivery Regulations established by the Bank, and is provided in preparation for the issuance of the shares of the Bank to the directors (excluding directors serving as Audit and Supervisory Committee members and outside directors) and executive officers of the Bank. The amount is calculated based on the estimated amount of share-based remuneration obligation at the year end.

(m) Reserve for reimbursement of dormant deposits

Reserve for the reimbursement of dormant deposits which were de-recognized as liabilities under certain conditions is provided for possible losses on the future claims.

(n) Reserve for contingent losses

The Bank provides a reserve for future payments under the Responsibility-sharing System with Credit Guarantee Corporations, at an amount estimated based on historical experience.

(o) Recognition of significant revenues and expenses

(1) Revenue from contracts with customers

The Bank recognizes revenue at the amount expected to be received in exchange for promised goods or services when control of the goods or services is transferred to the customer.

(2) Revenue related to finance lease transactions

The Bank records sales and cost of sales when lease payments are received.

(p) Foreign currency transaction

Foreign currency denominated assets and liabilities are translated into Japanese yen at the exchange rate prevailing at the balance sheet date.

(q) Hedge accounting

(1) Hedge against interest rate risk

For interest rate derivatives to mitigate the interest rate risks arising from various financial assets and liabilities, the Bank applies the deferred hedge accounting based on the rules prescribed in the Japanese Institute of Certified Public Accountants ("JICPA") Industry Committee Practical Guidelines No. 24, the "Accounting and Auditing Treatment of Accounting Standards for Financial Instruments in the Banking Industry" (March 17, 2022). Under these rules, hedge effectiveness is assessed by specifying hedged items (such as securities and loans) and the corresponding hedging instruments (such as interest rate swaps).

(2) Hedge against foreign exchange risk

For foreign exchange risks arising from financial assets and liabilities

denominated in foreign currencies, the Bank applies the deferred method of hedge accounting based on the rules prescribed in the JICPA Industry Committee Practical Guidelines No. 25, the "Accounting and Auditing Treatment of Accounting Standards for Foreign Currency Transactions in the Banking Industry" (October 8, 2020). Hedge effectiveness is assessed for designating currency swaps and foreign exchange swaps, etc., which offset foreign exchange risks of claim and debt denominated in foreign currency as hedging instruments, by verifying the correlation between the hedged items and the foreign exchange positions of hedging instruments.

(r) Cash and cash equivalents

For the purpose of the consolidated statements of cash flows, cash and cash equivalents consist of cash and deposit with the Bank of Japan.

(s) Income taxes

Deferred tax assets and liabilities are recorded based on the temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements using the enacted tax rates in effect for the year in which the temporary differences are expected to be settled. Deferred tax assets are also recognized for the estimated future tax effects attributable to the operating loss carried forward. A valuation allowance is recorded to reduce deferred tax assets if it is more likely than not that some or all the deferred tax assets will not be realized.

4. Significant Accounting Estimates

The following is a list of items which were recorded in the consolidated financial statements for the fiscal years ended March 31, 2024 and 2023 using accounting estimates and may have a material impact on the consolidated financial statements for the following fiscal years.

(a) Reserve for possible loan losses

Loans and bills discounted are major assets that account for about half of total assets in the consolidated financial statements. The recording of reserve for possible loan losses related to credit risk of loans and bills discounted has a significant impact on the financial condition and operating results of the Bank and its consolidated subsidiaries (the "Group"). Therefore, the Group judges that the estimate of the reserve for possible loan losses is important for accounting purposes.

(1) The amounts recorded in the consolidated financial statements as of March 31, 2024 and 2023

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Reserve for possible loan losses	¥13,820	¥13,433	\$91,275

(2) Information that contributes to understanding of significant accounting estimates on identified items

The Bank determines the obligor category (Normal Obligors, Cautious Obligors (Intensive Control Obligors, other Cautious Obligors), Potential Bankrupt Obligors, Substantially Bankrupt Obligors, Bankrupt Obligors) for each obligor based on the obligor's financial information and available external information, and records reserve for possible loan losses based on the calculation method described in "3. Summary of Significant Accounting Policies (g) Reserve for possible loan losses."

The classification of obligors is reviewed regularly and on an as-needed basis based on the financial information of the obligors. However, the category of obligors who are facing poor performance or financial difficulties may depend on the judgment of the reasonableness and feasibility of the expected recovery of future performance and management improvement plans. If the obligor's category changes due to changes in the business environment surrounding the obligor, which is

the premise for judging the reasonableness and feasibility of the management improvement plan, the reserve for possible loan losses may change in the following fiscal year.

The future estimated value and other adjustments necessary for the estimated loss ratio used for calculating the reserve for possible loan losses is calculated, if the loss rate with the business cycle taken into account and based on the average value for a longer and certain period in the past is high, by taking into consideration the difference of the loss rates.

In addition, the Bank judged that the credit risk to obligors belonging to specific industries, such as the accommodation industry, that were significantly affected by the economic impact of the COVID-19 pandemic, still remains high. Accordingly, reserve for possible loan losses of ¥891 million (U.S.\$5,884 thousand) and ¥678 million as of March 31, 2024 and 2023, respectively, was additionally recorded by making necessary adjustments to the historical loan loss ratio, assuming that the obligor classification has been lowered.

The reserve for possible loan losses may change in the fiscal year ending March 31, 2025 if the circumstances on which the assumptions are based change.

5. Additional Information

(a) Performance-linked stock compensation plan

1. Outline

The Bank has introduced a performance-linked stock compensation plan (the "Plan") using the executive compensation BIP trust. The objective of the Plan is to further clarify the link between the remuneration of directors (excluding directors serving as Audit and Supervisory Committee members and outside directors) and executive officers (together with directors, "directors, etc."), and the Bank's business performance and share value, and enhance awareness of directors, etc. for contributing to improving business performance over the medium- to long-term and increasing corporate value.

Under the Plan, the Bank's shares are acquired through the trust by using an amount of remuneration for directors, etc. contributed by the Bank as funds, and based on the Share Delivery Regulations established by the Bank, the Bank's shares and cash equivalent to the conversion value of the Bank's shares are delivered and paid to the Bank's directors, etc.

2. The Bank's shares remaining in trust

The shares of the Bank remaining in trust are recorded as treasury stock in stockholders' equity. The book value of the treasury stock was ¥200 million (U.S.\$1,320 thousand) and ¥202 million as of March 31, 2024 and 2023, respectively. The number of shares was 111 thousand and 112 thousand as of March 31, 2024 and 2023, respectively.

(b) Employee Stock Ownership Trust ESOP

1. Outline

The Bank has introduced the "Employee Stock Ownership Trust ESOP" as an incentive plan to enhance the medium- to long-term corporate value and expand benefit packages by utilizing the Bank's employee stock ownership association.

The Bank establishes a trust whose beneficiaries are employees who are members of the stock ownership association and satisfy certain requirements, and the trust will acquire the number of the Bank's shares expected to be acquired by the stock ownership association over the three-year period following the trust agreement, in a lump sum, using funds raised through borrowings. Thereafter, the acquisition of the Bank's shares by the stock ownership association will be made through purchases from such trust. At the time of termination of the trust, if there

is any trust income due to an increase in the stock price, money will be distributed to the beneficiary employees in proportion to their contribution. When a decline in stock prices results in a loss on transfer and liabilities related to trust assets remains, the Bank will make a lump-sum repayment in accordance with the indemnity clause in the loan agreement, and there will be no additional burden on the employees.

2. The Bank's shares remaining in the trust

The Bank's shares remaining in the trust are recorded as treasury stock under net assets based on their book value in the trust (excluding incidental expenses). The book value of such treasury stock amounted to ¥370 million (\$2,443 thousand) and ¥522 million, as of March 31, 2024 and 2023, respectively. The number of shares was 200 thousand shares and 283 thousand shares as of March 31, 2024 and 2023, respectively.

3. The book value of loans recorded under the gross amount method

The book value of loans recorded under the gross amount method was ¥377 million (\$2,489 thousand) and ¥525 million as of March 31, 2024 and 2023, respectively.

6. Securities

Securities as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Japanese government bonds	¥ 50,936	¥ 46,206	\$ 336,411
Local government bonds	282,945	291,360	1,868,733
Short-term corporate bonds	4,997	2,999	33,003
Corporate bonds	108,877	108,224	719,087
Share stocks	57,550	43,503	380,093
Other securities	303,114	285,740	2,001,941
Total	¥ 808,422	¥ 778,034	\$ 5,339,290

Fair value and valuation differences of securities as of March 31, 2024 and 2023 and other related information are stated below.

(a) Held-to-maturity debt securities

None to report as of March 31, 2024 and 2023.

(b) Available-for-sale securities

The Group's investments in available-for-sale securities as of March 31, 2024 and 2023 were summarized in the following tables. For presentation purposes, the tables also include: (i) trading account securities, (ii) some negotiable certificates of deposit included in cash and deposits and (iii) a part of securities included in monetary claims bought on the consolidated balance sheets, but exclude the stocks of the Bank's subsidiaries and affiliates.

	Millions of yen		
	2024

Total	\$ 5,262,855	\$ 5,173,509	\$ 89,340

(c) Available-for-sale securities sold

Available-for-sale securities sold and the gains and losses on sale of those securities for the years ended March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Proceeds from sales	¥ 63,498	¥ 176,890	\$ 419,377
Gains	3,912	7,420	25,837
Losses	1,356	5,248	8,955

There were no investment securities which were impaired for the years ended March 31, 2024 and 2023.

7. Loans and Bills Discounted

(a) Loans and bills discounted as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Bills discounted	¥ 2,221	¥ 2,760	\$ 14,668
Loans on notes	18,826	19,276	124,337
Loans on deeds	1,784,090	1,692,854	11,783,171
Overdrafts	185,656	177,578	1,226,180
Total	¥ 1,990,794	¥ 1,892,469	\$ 13,148,365

(b) Non-performing loans

Claims under the Banking Act and the Act on Emergency Measures for the Revitalization of the Financial Functions are as follows. The claims are recorded in the following accounts: the corporate bonds (limited to those for which redemption of the principal and payment of interest is guaranteed in whole or in part and for which the bonds were issued through private placement of securities (Article 2, paragraph 3 of the Financial Instruments and Exchange Act)) included in "securities," loans and bills discounted, foreign exchanges, accrued interest and suspense payments included in "other assets," and customers' liabilities for acceptances and guarantees in the consolidated balance sheets, and the securities (limited to those used for loans or for lease agreements) when securities in notes are used for loans.

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Legal bankruptcy and de facto bankruptcy (*1)	¥ 7,274	¥ 7,794	\$ 48,041
Bankruptcy risk (*2)	43,219	40,452	285,443
Loans past due for three months or more (*3)	—	—	—
Restructured loans (*4)	3,481	1,555	22,990
Total	¥ 53,975	¥ 49,802	\$ 356,482

*1. "Legal bankruptcy and de facto bankruptcy" are claims against borrowers who have fallen into bankruptcy due to reasons such as the commencement of bankruptcy proceedings, the commencement of rehabilitation proceedings, and the petition for the commencement of rehabilitation proceedings, and claims equivalent thereto.

*2. "Bankruptcy risk" are loans to borrowers who are not currently in bankruptcy but are experiencing difficult financial situations and operating conditions with a high possibility that the principal and interest cannot be collected according to the contract, excluding "legal bankruptcy and de facto bankruptcy."

*3. "Loans past due for three months or more" are classified in this category when three months or more have elapsed since the due date with no payment of principal or interest. Excluded from this balance are the balances of loans in legal bankruptcy and de facto bankruptcy and the balances of bankruptcy risk.

*4. "Restructured loans" include loans which have been restructured to support the rehabilitation of certain borrowers who are encountering financial difficulties, with the intention of ensuring recovery of the loans by revising terms of repayment favorable to the borrowers (such as by reducing the rate of interest or by providing a grace period for the payment of principal/interest, debt waiver, etc.). Excluded from this balance are the balances of loans in legal bankruptcy and de facto bankruptcy, the balances of bankruptcy risk and the balances of loans past due for three months or more.

*5. The above claim amounts are before deducting reserve for possible loan losses.

(c) Bills discounted

Bills discounted are accounted for as financial transactions in accordance with the JICPA Industry Committee Practical Guidelines No. 24. The Bank has the rights to sell or pledge commercial bills discounted and foreign exchange bills bought without restrictions. Their total face value as of March 31, 2024 and 2023 were ¥2,221 million (U.S.\$14,668 thousand) and ¥2,760 million, respectively.

(d) Contracts of overdraft facilities and loan commitment limits

Contracts of overdraft facilities and loan commitment limits are the contracts detailing that the Bank lends to customers up to the prescribed limits in response to customers' application of loan as long as there is no violation of any condition in the contracts.

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Unused balance within the limits	¥620,238	¥637,920	\$4,096,413
Of which, the term of contracts is less than one year or revocable at any time	588,861	604,373	3,889,181

Since many of these commitments expire without being utilized, the unused amount does not necessarily represent a future cash requirement. Most of these contracts have conditions such that the Bank can refuse customers' applications for loans and can decrease the contract limits as they see with proper reasons (e.g., changes in financial situations, deterioration of customers' creditworthiness). At the inception of a contract the Bank obtains real estate, securities, etc. as collateral, if considered necessary. Subsequently, the Bank performs periodic reviews of customers' business results based on internal rules, and takes necessary measures to reconsider conditions in contracts and/or the requirement for additional collateral and guarantees.

8. Foreign Exchange Assets

Foreign exchange assets as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Due from foreign banks	¥ 2,373	¥ 1,547	\$ 15,672
Total	¥ 2,373	¥ 1,547	\$ 15,672

9. Other Assets

Other assets as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Lease receivables and lease investment assets	¥ 12,316	¥ 11,129	\$ 81,342
Domestic exchange settlement	—	52	—
Prepaid expenses	16	17	105
Accrued income	5,657	4,967	37,362
Variation margins of futures markets	61	880	402
Derivatives	50	94	330
Others	23,606	23,677	155,907
Total	¥ 41,708	¥ 40,819	\$ 275,463

10. Premises and Equipment

Premises and equipment as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Buildings	¥ 6,064	¥ 6,438	\$ 40,050
Land	9,755	9,751	64,427
Construction in progress	224	9	1,479
Others	1,833	1,930	12,106
Total	¥ 17,878	¥ 18,130	\$ 118,076

The accumulated depreciation of premises and equipment as of March 31, 2024 and 2023 amounted to ¥32,269 million (U.S.\$213,123 thousand) and ¥32,474 million, respectively.

Deferred gain on real estate (Asshuku-kicho) deductible for tax purpose amounted to ¥1,845 million (U.S.\$12,185 thousand) and ¥1,860 million as of March 31, 2024 and 2023, respectively.

11. Intangible Assets

Intangible assets as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Software	¥ 709	¥ 960	\$ 4,682
Others	195	204	1,287
Total	¥ 904	¥ 1,164	\$ 5,970

12. Leases

Finance leases

Finance leases that do not transfer ownership

(1) Outline of lease assets

(i) Tangible fixed assets

Vehicle

(ii) Intangible assets

None

(2) Method of depreciation of lease assets

Please refer to Note 3. "Summary of Significant Accounting Policies, (f) Leased assets" in "Notes to Consolidated Financial Statements."

Operating leases

The aggregate future minimum lease payments under non-cancellable operating leases as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Due within one year	¥ 27	¥ 27	\$ 178
Due after one year	366	394	2,417
Total	¥ 394	¥ 422	\$ 2,602

13. Assets Pledged

Assets pledged as collateral as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Securities	¥259,304	¥262,021	\$1,712,594
Other assets	47	49	310
Total	¥259,352	¥262,070	\$1,712,911

Liabilities related to above pledged assets as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Deposits	¥ 21,144	¥ 21,479	\$ 139,647
Payables under securities lending transactions	—	5,135	—
Borrowed money	205,400	186,300	1,356,581

In addition, the following assets were pledged as collateral for settlements of exchange as of March 31, 2024 and 2023, respectively.

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Securities	¥ 2,646	¥ 2,899	\$ 17,475
Other assets	19,000	19,000	125,487

14. Acceptances and Guarantees

The Bank provides guarantees for liabilities of its customers for payment of loans from other financial institutions. As a contra account, "Customers' liabilities for acceptances and guarantees" are shown on the assets side, indicating the Bank's right of indemnity from the applicants.

15. Income Taxes

Income taxes applicable to the Bank and consolidated subsidiaries include corporate tax, inhabitants' tax and enterprise tax, which results in a statutory rate of approximately 30.5% for the years ended March 31, 2024 and 2023.

Significant components of deferred tax assets and liabilities at March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Deferred tax assets:			
Net defined benefit liability	¥ 2,725	¥ 2,689	\$ 17,997
Reserve for possible loan losses	3,687	3,439	24,351
Securities	655	564	4,326
Depreciation	264	278	1,743
Valuation difference on available-for-sale securities	—	1,731	—
Others	1,414	1,397	9,338
Total deferred tax assets	8,747	10,100	57,770
Valuation allowance for the total of deductible temporary differences	(2,640)	(4,418)	(17,436)
Subtotal valuation allowance	(2,640)	(4,418)	(17,436)
Total deferred tax assets, net	6,107	5,681	40,334
Deferred tax liabilities:			
Gain on establishment of the trust for employees' retirement benefits	(631)	(910)	(4,167)
Valuation difference on available-for-sale securities	(3,862)	(310)	(25,506)
Reserve for advanced depreciation of real estate	(74)	(76)	(488)
Remeasurements of defined benefit plans	(2,357)	(248)	(15,567)
Others	(1,103)	(930)	(7,284)
Total deferred tax liabilities	(8,029)	(2,477)	(53,028)
Net deferred tax assets (liabilities)	¥(1,921)	¥ 3,204	\$ (12,687)

The following summarizes the amounts shown on the consolidated balance sheets.

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Deferred tax assets	¥ 243	¥ 3,743	\$ 1,604
Deferred tax liabilities	(2,165)	(538)	(14,298)
Net deferred tax assets (liabilities)	¥(1,921)	¥ 3,204	\$ (12,687)

A reconciliation between the effective income tax rate applied to the consolidated financial statements and the statutory tax rate for the years ended March 31, 2024 and 2023 was as follows:

	2024	2023
Statutory tax rate	30.5 %	30.5 %
(Adjustments)		
Expenses not deductible for income tax purpose	0.2	0.2
Dividend income not included in taxable income	(3.3)	(4.8)
Inhabitant tax on per capital basis	0.6	0.9
Change in valuation allowance	(0.7)	(4.7)
Others	0.6	4.6
Actual effective tax rate	27.9 %	26.7 %

16. Deposits

An analysis of deposits as of March 31, 2024 and 2023 was as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Current deposits	¥ 163,737	¥ 175,360	\$ 1,081,414
Ordinary deposits	1,898,858	1,816,557	12,541,166
Saving deposits	50,958	50,756	336,556
Deposits at notice	6,170	6,720	40,750
Time deposits	958,833	958,219	6,332,692
Installment savings	2	2	13
Other deposits	34,871	46,137	230,308
Total	¥3,113,432	¥3,053,755	\$20,562,921

17. Borrowed Money

Borrowed money as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Borrowings from other banks	¥208,608	¥189,288	\$1,377,768

The average interest rates of the loans were 0.008% and 0.007% as of March 31, 2024 and 2023, respectively. The aggregate annual maturities of the loans from banks subsequent to March 31, 2024 were summarized as follows:

	Millions of yen	Thousands of U.S. dollars (Note 1)
2025	¥122,782	\$810,923
2026	47,939	316,617
2027	22,210	146,687
2028	15,325	101,215
2029	195	1,287

18. Foreign Exchanges Liabilities

Foreign exchange liabilities as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Foreign exchange bills sold	¥ 50	¥ 24	\$ 330
Foreign exchange bills payable	89	18	587
Total	¥ 140	¥ 42	\$ 924

19. Other Liabilities

Other liabilities as of March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Domestic exchange settlement	¥ 195	¥ —	\$ 1,287
Income taxes payable	1,566	334	10,342
Accrued expenses	1,606	1,756	10,606
Unearned income	1,841	2,161	12,159
Reserve for interest on installment savings	0	0	0
Derivatives	47	1,151	310
Cash collateral received for financial instruments	80	280	528
Lease obligations	989	825	6,531
Others	5,334	4,853	35,228
Total	¥ 11,662	¥ 11,362	\$ 77,022

20. Reserve for Employees' Retirement Benefits

The Group has defined benefit plans, i.e., Employees' Pension Fund plan (funded plan), and lump-sum retirement plan (non-funded plan). Under these defined benefit plans, employees are generally entitled to lump-sum payments and/or pension payments, the amounts of which are determined by reference to their basic salary and length of service. Retirement benefit trust is established for the Employees' Pension Fund plan and the lump-sum retirement plan. Some lump-sum retirement plan is substantially the same as funded plan due to the retirement benefit trust.

The Bank has a defined contribution pension plan as well. The amount of contribution required to the defined contribution pension plan was ¥158 million (U.S.\$1,043 thousand) and ¥164 million for the years ended March 31, 2024 and 2023, respectively.

(a) Changes in projected benefit obligation for the years ended March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Projected benefit obligation			
– Beginning balance	¥ 22,442	¥ 23,765	\$ 148,220
Service cost	525	575	3,467
Interest cost	199	142	1,314
Actuarial gains and losses arising in the year	(1,086)	(754)	(7,172)
Retirement benefits paid	(1,246)	(1,286)	(8,229)
Projected benefit obligation			
– Ending balance	¥ 20,834	¥ 22,442	\$ 137,599

(b) Changes in plan assets for the years ended March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Plan assets – Beginning balance	¥ 26,026	¥ 26,761	\$ 171,890
Expected return on plan assets	727	723	4,801
Actuarial gains and losses arising in the year	5,935	(736)	39,198
Retirement benefits paid	(767)	(761)	(5,065)
Others	37	39	244
Plan assets – Ending balance	¥ 31,960	¥ 26,026	\$ 211,082

(c) Ending balances of projected benefit obligation and plan assets and amounts on the consolidated balance sheets as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Projected benefit obligation under funded plan	¥ 20,779	¥ 22,392	\$ 137,236
Plan assets	(31,960)	(26,026)	(211,082)
	(11,181)	(3,634)	(73,845)
Projected benefit obligation under non-funded plan	54	50	356
Net balance on the consolidated balance sheets	¥ (11,126)	¥ (3,583)	\$ (73,482)

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Net defined benefit liability	¥ 942	¥ 1,909	\$ 6,221
Net defined benefit asset	(12,068)	(5,492)	(79,704)
Net balance on the consolidated balance sheets	¥ (11,126)	¥ (3,583)	\$ (73,482)

(d) Components of retirement benefit cost as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Service cost	¥ 486	¥ 535	\$ 3,209
Interest cost	199	142	1,314
Expected return on plan assets	(727)	(723)	(4,801)
Amortization of actuarial gains and losses	(108)	91	(713)
Retirement benefit cost	¥ (150)	¥ 46	\$ (990)

Note: The amount of employee contributions to the corporate pension fund is deducted from "Service cost."

(e) Items accounted for as remeasurements of defined benefit plans, before tax effect, for the years ended March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Actuarial gains and losses	¥ (6,914)	¥ (110)	\$ (45,664)
Total	¥ (6,914)	¥ (110)	\$ (45,664)

(f) Remeasurements of defined benefit plans, before tax effect, as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Unrecognized actuarial gains and losses	¥ (7,729)	¥ (815)	\$ (51,046)
Total	¥ (7,729)	¥ (815)	\$ (51,046)

(g) Plan assets consisted of the following investments as of March 31, 2024 and 2023

	2024	2023
Debt securities	19%	18%
Equity securities	47	43
Others	34	39
Total	100%	100%

The total plan assets included the retirement benefit trust established for Employees' Pension Fund plan and lump-sum retirement plan. The portion to the total plan assets was 46% and 41% as of March 31, 2024 and 2023, respectively.

Long-term expected rate of return on plan assets is determined based on the assumption of: (i) allocation of plan assets and (ii) long-term returns on such assets.

(h) Assumption used for the calculation of actuarial gains and losses

The assumption used for the calculation of actuarial gains and losses, on a basis of weighted average, is as follows:

	2024	2023
Discount rate	1.057 to 1.372%	0.718 to 0.968%
Long-term expected rate of return	2.5 to 3.9	2.5 to 3.5
Expected salary raise	3.2	3.2

21. Land Revaluation Excess

Pursuant to the Act on Revaluation of Land (Act No. 34, promulgated on March 31, 1998), the Bank recorded the land owned by the Bank at the fair value and related unrealized gain, net of the applicable income tax effect, was reported as "Land revaluation excess" in net assets. The corresponding deferred tax liability amount was recorded as "Deferred tax liability for land revaluation."

Revaluation date: March 31, 2000

Revaluation method stated in Article 3, Section 3 of the Act on

Revaluation of Land:

The value of land is based on the official notice prices determined by the public notification of the Commissioner of the National Tax Administration and as provided for in the Land-holding Tax Act, as stipulated in Article 2, Item 4 of the Order for Enforcement of the Act on Revaluation of Land (Cabinet Order No. 119, promulgated on March 31, 1998), after making reasonable adjustments, such as for location and quality of sites.

Differences between the fair value and the carrying value were ¥3,921 million (U.S.\$25,896 thousand) and ¥4,065 million as of March 31, 2024 and 2023, respectively.

22. Valuation Difference on Available-for-sale Securities

The components of valuation difference on available-for-sale securities as of March 31, 2024 and 2023 were as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Valuation differences:			
Available-for-sale securities	¥ 13,306	¥ (4,824)	\$ 87,880
Deferred tax liabilities	(3,862)	(310)	(25,506)
Non-controlling interests	(27)	(19)	(178)
Valuation differences on available-for-sale securities	¥ 9,416	¥ (5,155)	\$ 62,188

23. Other Interest Income

Other interest income for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Interest on deposits	¥ 381	¥ 588	\$ 2,516
Others	83	85	548
Total	¥ 464	¥ 673	\$ 3,064

24. Fees and Commissions—Income

Fees and Commissions income for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Domestic and foreign exchange	¥ 1,520	¥ 1,526	\$ 10,038
Others	5,658	5,407	37,368
Total	¥ 7,178	¥ 6,934	\$ 47,407

25. Other Operating Income

Other operating income for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Gains of sales and redemption of bonds	¥ 1,315	¥ 1,280	\$ 8,685
Gains on foreign exchange transactions	52	75	343
Others	5,230	4,737	34,541
Total	¥ 6,598	¥ 6,093	\$ 43,577

26. Other Income

Other income for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Recoveries of written off claims	¥ 1	¥ 3	\$ 6
Gains on sales of available-for-sale securities	3,817	6,722	25,209
Gains on money held in trust	37	9	244
Gains on disposal of fixed assets	9	15	59
Others	379	316	2,503
Total	¥ 4,246	¥ 7,067	\$ 28,043

27. Other Interest Expenses

Other interest expenses for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Interest on interest rate swaps	¥ —	¥ —	\$ —
Others	1,435	960	9,477
Total	¥ 1,435	¥ 960	\$ 9,477

28. Fees and Commissions—Expenses

Fees and commissions expenses for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Domestic and foreign exchanges	¥ 128	¥ 126	\$ 845
Others	2,283	2,059	15,078
Total	¥ 2,412	¥ 2,186	\$ 15,930

29. Other Operating Expenses

Other operating expenses for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Losses on redemption of bonds	¥ 1,175	¥ 4,960	\$ 7,760
Losses on sales of bonds	1,887	6,420	12,462
Loss on trading account securities transactions	0	0	0
Others	4,842	4,518	31,979
Total	¥ 7,905	¥ 15,899	\$ 52,209

30. Other Expenses

Other expenses for the years ended March 31, 2024 and 2023 consisted of the following:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Provision of reserve for possible loan losses	¥ 1,204	¥ 419	\$ 7,951
Written off of loans	23	7	151
Losses on sales of available-for-sale securities	822	44	5,428
Losses on devaluation of available-for-sale securities	12	34	79
Losses on money held in trust	—	0	—
Losses on disposals of fixed assets	202	158	1,334
Impairment losses	73	284	482
Others	856	706	5,653
Total	¥ 3,194	¥ 1,656	\$ 21,095

31. Losses on Impairment of Fixed Assets

The Bank recognized losses on impairment of the following fixed assets, included in "other expenses," for the years ended March 31, 2024 and 2023.

For the year ended March 31, 2024

Area	Main purpose	Variety	Millions of yen	Thousands of U.S. dollars (Note 1)
Akita Prefecture	Branch Buildings	Buildings; one place	¥ 28	\$ 184
	Idle Assets	Land; nine places	2	13
Other	Branch Buildings	Buildings; two places	34	224
	Idle Assets	Buildings; one place	7	46
Total			¥ 73	\$ 482
Components of impairment losses:				
Buildings			¥ 70	\$ 462
Land			2	13

For the year ended March 31, 2023

Area	Main purpose	Variety	Millions of yen
Akita Prefecture	Branch Buildings	Land and Buildings; three places	¥ 49
	Idle Assets	Land and Buildings; 13 places	170
Other	Branch Buildings	Buildings; one place	13
	Idle Assets	Land and Buildings; one place	51
Total			¥ 284
Components of impairment losses:			
Buildings			¥ 105
Land			179

For the purpose of identifying impaired assets, the assets of each individual branch are grouped as a unit.

The recoverable values of such assets are measured as the higher of net realizable values or value in use. Net realizable values are determined by the appraisal value based on Japanese Real Estate Appraisal Standards (issued by the Ministry of Lands, Infrastructure and Transport) less estimated costs of disposal. Value in use is calculated by discounting the future cash flow by 1.7 % and 1.1 % as of March 31, 2024 and 2023, respectively.

32. Supplementary Information to Consolidated Statements of Comprehensive Income

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Valuation difference on available-for-sale securities:			
Amount arising in the year	¥ 19,457	¥(27,988)	\$ 128,505
Recycling	(1,326)	2,794	(8,757)
Before tax effect adjustment	18,131	(25,194)	119,747
Tax effect	(3,551)	5,770	(23,452)
Valuation difference on available-for-sale securities	¥ 14,580	¥(19,423)	\$ 96,294
Deferred gains or losses on hedges:			
Amount arising in the year	¥ (1,369)	¥ (900)	\$ (9,041)
Recycling	1,370	894	9,048
Before tax effect adjustment	0	(5)	0
Tax effect	(0)	1	(0)
Deferred gains or losses on hedges	¥ 0	¥ (3)	\$ 0
Remeasurements of defined benefit plans			
Amount arising in the year	¥ 7,022	¥ 18	\$ 46,377
Recycling	(108)	91	(713)
Before tax effect adjustment	6,914	110	45,664
Tax effect	(2,108)	(33)	(13,922)
Remeasurements of defined benefit plans	¥ 4,805	¥ 76	\$ 31,735
Total other comprehensive income	¥ 19,385	¥(19,351)	\$ 128,029

33. Financial Instruments

(a) Status

(1) Policy on financial instruments

The Group engages in banking as the mainstay of business, as well as other financial services such as leasing and guarantee. To execute these services, the Bank utilizes funds acquired primarily from deposits and applies funds mainly to extend loans and purchase securities. To ensure sound and appropriate banking operations without succumbing to the pursuit of excessive profit or risk aversion, the Bank conducts suitable risk management and seeks to maintain the right balance between profit and risk in fund-raising and application activities. The Bank also utilizes derivative transactions to hedge potential risks.

(2) Financial instruments and associated risks

Financial assets held by the Group are primarily loans and investment securities.

Loans are exposed to credit risk, which could lead to losses if the financial status of certain borrowers deteriorates, causing the asset value of collateral to decrease or disappear altogether.

Securities held by the Bank are mainly bonds, stocks, investment trusts, and investments in partnerships through capital contributions. The Bank holds these securities to secure profit, primarily from interest and dividends, and for strategic purposes, such as business alliances. These securities are exposed to the credit risk of the respective issuers as well as market risk that could lead to losses caused by fluctuations, particularly in interest rates, exchange rates and market prices, that erode the value of held assets.

Financial liabilities held by the Group are mainly deposits. Deposits are exposed to liquidity risk, which could lead to losses if an unexpected outflow of cash, for example, forces the Bank to acquire funds at significantly higher interest rates than usual (funding liquidity risk), or changes in the market environment force the Bank into transactions at prices that are more disadvantageous than usual (market liquidity risk).

The Bank engages in derivative transactions, including interest rate swaps, bond futures, forward exchange contracts and currency options. Interest rate swaps and bond futures serve to hedge against interest rate fluctuations affecting on-balance-sheet transactions. Forward exchange contracts and currency options serve to hedge foreign exchange fluctuations. (Please refer to Note 3. "Summary of Significant Accounting Policies, (q) Hedge accounting," regarding hedging instruments, hedged items, the Bank's accounting standards and qualifying method.)

Some transactions that do not meet hedge accounting criteria are exposed to interest rate risk and foreign exchange risk.

(3) Risk management for financial instruments

To ensure the quality and appropriateness of its banking operations, the Bank undertakes integrated risk management, a self-administered process whereby inherent risks are evaluated according to category, such as credit risk and market risk, and are viewed in total and compared against operating capacity, that is, net worth. Risk management for financial instruments also falls within the scope of this process.

Integrated risk management entails risk capital allocation by division and risk category within net worth on a yearly basis, monitoring risk volume, which is quantified using methods such as Value at Risk (VaR) and the status of allocated risk capital, and sufficient verification of business soundness and capital adequacy. In addition, corporate structures, such as the Board of Directors, are provided with regular updates on risk status and risk volume is capped when conditions require such action.

In setting caps on risk volume, the Bank considers profitability and efficiency, including a suitable assessment of risk and return, to underpin efforts that will enhance operations and results.

(i) Credit risk management

Through the application of a credit policy that outlines the Bank's basic lending policy and screening criteria, and credit management regulations outlining/detailing specific lending rules, the Bank has established an administration policy for consolidated subsidiaries and strategic investments, in order to prevent excessive loan volume to a specific industry or group, with the aim of making risk management as accurate as possible.

In addition, the Bank maintains a credit rating system for corporate clients to quantify credit risks and is improving loan pricing. Furthermore, for loans and bills discounted, which account for the majority of credit risk, the Bank has separated the screening and administration division from the sales promotion division and set up a screening and administration system that is not influenced by the sales promotion division. Through a specialized screening and loan management and recovery structure, the Bank is able to ensure asset quality and improve asset value.

(ii) Market risk management

The Bank's risk volume control structure is supported by regular reports to the ALM Committee on interest rate risk volume associated with the Bank's assets and liabilities, and interest rate, exchange rate and stock price risk volume associated with market transactions.

In its market transactions, the Bank strives for the efficient application of funds and optimum risk and return, within the limits of allocated risk capital determined through integrated risk management and the predetermined annual capital budget. The Bank also maintains a structure with middle offices specializing in risk management that are independent of both front offices, which engage in market transactions, and back offices, which handle administrative tasks. This structure reinforces the system of mutual checks and balances and helps to prevent potential processing mistakes and unauthorized transactions, although these are very unlikely.

(iii) Liquidity risk management

The Bank maintains an appropriate financial position with regard to liquidity risk by continually improving the accuracy of the methods used to estimate and verify fund utilization and acquisition balances. In addition, the Bank strives to prevent liquidity risk through the assessment and analysis of conditions in financial markets and society at large that could affect cash flow. To respond quickly to fund-impacting situations that arise, the Bank has established classifications for cash flow conditions, ranging from "normal" to "cause for concern" and "critical," and procedures are in place for dealing with situations that fall into the "cause for concern" and "critical" categories.

(iv) Risk management relating to derivative transactions

To manage risks relating to interest rate swaps, the necessity of hedging transactions and the status of derivative transactions are continuously monitored at the ALM Committee. Bond futures are operated based on commitment lines and loss-cut rules as prescribed in the annual operation policy for securities, and the status of its operations is periodically monitored by the market risk management department. Regarding forward exchange contracts and currency options, it is vital to manage total balances including on-balance-sheet and off-balance-sheet transactions, in addition to the assessment of individual transactions.

(v) Quantitative information on market risk

For the Group, the key financial instruments influenced by interest rate risk, a major risk variable, are: loans, bonds classified as available-for-sales securities under investment securities, deposits, negotiable certificates of deposit, and interest rate swaps under derivative transactions. The Group uses the measure VaR to calculate changes in the economic value of these financial assets and financial liabilities, which facilitates quantitative analysis for controlling the risk of interest rate fluctuations.

To calculate the associated value impact of interest rate risk on revenues

using VaR, the Group divides risk-prone financial assets and financial liabilities into fixed interest rate and floating interest rate groups, breaks down the balances into appropriate periods corresponding to respective interest due dates, and applies the variance-covariance method reflecting the correlation effect among risk factors (holding period: 40 days; confidence interval: 99%; observation period: 5 years) based on interest rate margins, the spread between lending and borrowing rates, for each period. As of March 31, 2024 and 2023, the Group's interest rate risk volume (estimated decrease in economic value) was ¥3,451 million (U.S.\$22,792 thousand) and ¥6,233 million, respectively.

Interest due dates on demand deposits subject to VaR measurement are sorted according to set periods, based on effective due dates estimated using internal models.

The Group also tests financial instruments with market value to compare actual losses at the end of the horizon period with model-derived VaR estimates, in an effort to verify that the measurement models used to identify interest rate risk are suitably accurate. However, VaR measures interest rate risk at a certain degree of probability statistically based on past market movements, so the technique may be unable to identify risk when market conditions are uncharacteristically volatile.

(4) Supplemental information relating to fair market values

Certain assumptions are used for measurement of fair value of financial instruments. Accordingly, the result of such measurement may vary if different assumptions are used.

(b) Fair value of financial instruments

The amounts on the consolidated balance sheets, fair values and their differences as of March 31, 2024 and 2023 are shown below. Stocks without market price and investment in partnerships are excluded from the following tables. Cash and due from banks, call loans and bills bought, foreign exchanges (assets and liabilities), call money and bills sold, and payables under securities lending transactions are omitted since they are settled in a short time period and the fair value approximates such carrying amount.

As of March 31, 2024

	Millions of yen			Thousands of U.S. dollars (Note 1)		
	Book value	Fair value	Difference	Book value	Fair value	Difference

(*) Demand deposits were included in the "Due in 1 year or less." Cumulative time deposits of ¥127,605 million (U.S.\$842,777 thousand) were not included in the above table.

(c) Fair value of financial instruments by level

The fair values of financial instruments are categorized into the following three levels depending on the observability and the significance of inputs used in the fair value measurements.

Level 1 fair value: Of observable inputs used in fair value measurement, fair values measured at quoted prices in active markets for identical assets or liabilities

Level 2 fair value: Of observable inputs used in fair value measurement, fair values measured using inputs other than Level 1 inputs

Level 3 fair value: Fair values measured using unobservable inputs

When using more than one input that is significant to fair value measurement, the Bank categorizes the fair value on the basis of the lowest priority level input.

Note 1: Explanation of valuation techniques and inputs used for fair value measurement

Assets

Monetary claims bought

Regarding monetary claims bought, book values are deemed fair values as the majority of such monetary claim are due within six months and the fair values approximate the book values. The fair values are categorized as Level 2 fair value.

Securities

When quoted unadjusted prices in active markets are available, the fair values of securities are categorized as Level 1 fair value. This mainly includes listed stocks and Japanese government bonds.

When published quoted prices are available but not considered to be in active markets, the fair values are categorized as Level 2 fair value. This mainly includes local government bonds and corporate bonds. For investment trusts which do not have market prices, net asset value is used as the fair value if there are no material restrictions on cancellation or repurchase requests that would require compensate for the risk from market participants, and the fair values are categorized as Level 2 fair value.

If quoted prices are not available, the fair values are measured using valuation techniques such as the present value technique of future cash flows. The Bank uses observable inputs as much as possible in valuations. Those inputs include TIBOR, the Japanese government bond yields, prepayment rates, credit spreads, probability of bankruptcy, and the loss ratio in bankruptcy. If significant unobservable inputs are used in the measurement, the fair values are categorized as Level 3 fair value.

Loans and bills discounted

For loans and bills discounted with floating interest rates, the book values are deemed fair values as the fair values approximate the book values because the market interest rate is reflected in the interest rate set within a short time period for such floating-rate loans and bills discounted.

Loans and bills discounted with fixed interest rates are categorized by nature, internal credit rating and maturity, and the present value is calculated based on the future cash flows, net of reserves for possible loan loss, discounted by the market interest rate.

Regarding loans to Bankrupt Obligors, Substantially Bankrupt Obligors and Potential Bankrupt Obligors, possible loan losses are estimated based on the present value of estimated future cash flows or collectible amounts from collateral and guarantees. Thus, the book value is deemed as fair value since the fair value approximates the book value.

Regarding loans and bills discounted which have no predetermined maturity since they are fully secured by collateral, their book values are deemed fair values as the fair values approximate the book values based on the repayment period and interest rate terms.

If the impact of unobservable inputs on the fair value is significant, they are categorized as Level 3 fair value, and if not, they are categorized as Level 2 fair value.

Liabilities

Deposits and negotiable certificates of deposit

For demand deposits, the amount payable on demand as of the consolidated balance sheet date (i.e., the book value) is used as the fair value. For time deposits and negotiable certificates of deposit, the fair value is calculated based on the present value discounted the future cash flows, after each deposits are categorized by product and maturity. The discount rate uses the market interest rate. Their fair values are categorized as Level 2 fair value.

Borrowed money

For floating-rate borrowings, the book values are deemed fair values as the fair values approximate the book values because the market interest rate is reflected in the interest rate set within a short time period and there has been no significant change in creditworthiness of the Bank or its consolidated subsidiaries after execution of such borrowings.

The book values of fixed rate borrowings are used as their fair values as both the amounts on the consolidated balance sheets and the fair values are insignificant. They are categorized as Level 2 fair value.

Derivative transactions

For derivative transactions, when quoted unadjusted prices in active markets are available, the fair values are categorized as Level 1 fair value. This mainly includes bond futures.

However, most derivative transactions are over-the-counter transactions and there is no published quoted price. Accordingly, the fair values are measured using the present value technique and valuation techniques such as the Black-Scholes model, depending on the type of transactions and the period until maturity. The main inputs used in these valuation techniques are interest rates, exchange rates and volatility. The Bank makes price adjustments when the impact based on credit risks of the counterparty and the Bank itself is significant. If no unobservable input is used or its impact is not significant, the fair values are categorized as Level 2 fair value. This includes forward exchange contract transactions.

Note 2: Level 3 fair value of financial instruments measured at fair value in the consolidated balance sheets

(1) Quantitative information on significant unobservable inputs

As of March 31, 2024

	Valuation techniques	Significant unobservable inputs	Scope of Inputs	Weighted average of inputs

*1. The amount is included in "other operating income" and "other operating expenses" in the consolidated statements of income.

*2. The amount is included in "valuation difference on available-for-sale securities" under "other comprehensive income" in the consolidated statements of comprehensive income.

*3. This transfer is from Level 2 to Level 3 fair value and due to the change of observability of inputs used for fair value measurement based on market liquidity. The transfer is made on the last day of fiscal year.

*4. This transfer is from Level 3 to Level 2 fair value and due to the change of observability of inputs used for fair value measurement based on market liquidity. The transfer is made on the last day of fiscal year.

(3) Explanation of the fair value valuation process

The Group has established policies and procedures for determining fair value in the middle division and the back division. The Bank verifies the validity of valuation techniques and inputs used to measure fair value and the appropriateness of the level classification of the fair value.

When measuring fair value, the Group uses a valuation model that can most appropriately reflect the nature, characteristics and risks of each asset.

When using a quoted price obtained from a third party, the Bank verifies the validity of the price by using appropriate methods, such as by confirming the valuation technique and input used and comparing with the fair value of similar financial products.

(4) Explanation of the impact on fair value of changes in significant unobservable inputs

Probability of bankruptcy

Probability of bankruptcy is an estimate that indicates the possibility of not collecting contractual payments. In general, a significant increase (decrease) in bankruptcy probability is accompanied by a decrease (increase) in recovery rate and an increase (decrease) in discount rate, resulting in a significant decrease (increase) in fair value.

34. Derivative Financial Instruments Transactions

Derivative transactions to which hedge accounting is not applied

Contract amounts, fair value and valuation gains/losses of derivatives outstanding as of March 31, 2024 and 2023 were summarized below.

(1) Foreign exchange related transactions (over the counter)

Note: The deferred method of hedge accounting is primarily applied based on the JICPA Industry Committee Practical Guidelines No. 25.

35. Capital Stock

The number of the Bank's authorized shares was 68,745,500 as of March 31, 2024 and 2023.

The number of shares in issue was 18,093,643 as of March 31, 2024 and 2023.

The number of treasury stocks held by the Bank, not including shares held by the trust of Employee Stock Ownership Plan and executive compensation BIP trust was 145,231 and 144,321 as of March 31, 2024 and 2023, respectively.

36. Stock Option Rights

None to report.

37. Retained Earnings

Japanese banks, including the Bank, are required to comply with the Banking Act. In accordance with the Companies Act ("the Act"), the Bank has provided a legal reserve which is included in retained earnings. The Act stipulates that neither additional paid-in capital nor the legal reserve is available for dividends, but that both may be used to reduce or eliminate a deficit. Under the Banking Act, an amount which is at least equal to 20% of the aggregate amount of cash dividends and certain appropriations of retained earnings associated with cash outlays applicable to each fiscal period is to be appropriated as a legal reserve until the aggregate amount of the legal reserve and the capital surplus account equals 100% of the common stock account. The Act also provides that if the total amount of additional paid-in capital and the legal reserve exceeds 100% of the amount of common stock, the excess may be distributed to the stockholders either as a return of capital or as dividends subject to the approval of the stockholders.

The maximum amount which the Bank can distribute as dividends is calculated based on the non-consolidated financial statements of the Bank in accordance with the Act.

38. Cash and Cash Equivalents

Reconciliation between cash and due from banks in the consolidated balance sheets, and cash and cash equivalents in the consolidated statements of cash flows at March 31, 2024 and 2023 was as follows:

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
Cash and due from banks	¥ 688,702	¥ 754,301	\$ 4,548,589
Due from banks without interest	(237)	(237)	(1,565)

Notes: (1) "Other" segment is not a reportable segment and includes consulting, regional trading, establishment and operation of a fund, guarantee, and credit card services.

(2) "Ordinary income other than the above" is mainly income to which the "Accounting Standard for Financial Instruments" is applied, including income from fund management.

40. Segment Information

(a) Outline of reportable segment

A reportable segment is a component of the Group for which discrete financial information is available and whose operating results are regularly reviewed by the Board of Directors to make decisions about resources to be allocated to the segment and assess its performance.

The Group offers total financial services mainly through operating branches with a philosophy that seeks to contribute to regional prosperity. Reportable segments are composed of banking business, leasing business and other businesses including consulting business, guarantee business and credit card business.

(b) Basis of measurement for the amount of ordinary income, segment profit, assets and other items by reporting segment

Accounting procedures applied to operating segments are consistent to those applied to the preparation of consolidated financial statements. Ordinary income from inter-segment transactions is measured on the assumption of arm's length transaction.

(c) Ordinary income, segment profit, assets and other items by reportable segment for the years ended March 31, 2024 and 2023

41. Related Party Transactions

Related party transactions for the years ended March 31, 2024 and 2023 and related information were as follows:

Related party	Category/Business	Account	Amounts of transaction			Balance at end of year		
			Millions of yen		Thousands of U.S. dollars (Note 1)	Millions of yen		Thousands of U.S. dollars (Note 1)
			2024	2023	2024	2024	2023	2024
Yoshiyuki Tsuji	Director of the Bank	Loan	¥ —	¥ —	\$ —	¥ 15	¥ 18	\$ 99

Notes: (1) The conditions of the above transactions were the same as arm's length transactions.

(2) Mr. Yoshiyuki Tsuji retired from the position of director of the Bank on June 28, 2023. Accordingly, the balance at the retirement date is shown as the balance as of March 31, 2024.

42. Per Share Information

Consolidated net assets and income per share and related information for the years ended March 31, 2024 and 2023 were as follows:

	Yen		U.S. dollars (Note 1)
	2024	2023	2024
	Net assets per share	¥ 9,756.89	¥ 8,503.10
Net income per share	258.15	185.35	1.70

Note: Diluted net income per share for the years ended March 31, 2024 and 2023 is not presented because there are no dilutive shares.

	Millions of yen		Thousands of U.S. dollars (Note 1)
	2024	2023	2024
	Net income attributable to owners of parent	¥ 4,541	¥ 3,295
Net income not attributable to common stockholders	—	—	—
Net income attributable to common stock owners of parent	4,541	3,295	29,991
Average number of common stock (thousand shares)	17,594	17,782	—

Note: The Bank's shares held by the executive compensation BIP trust and the Employee Stock Ownership Trust ESOP, which are recorded as treasury stock in stockholders' equity, are included in treasury stock deducted in the calculation of the average number of shares during the period for the calculation of net income per share. The average number of treasury stock during the period, which was deducted in the calculation of net income per share, was 354 thousand shares (111 thousand shares held by the executive compensation BIP trust and 242 thousand shares held by the Employee Stock Ownership Trust ESOP) and 167 thousand shares (91 thousand shares held by the executive compensation BIP trust and 75 thousand shares held by the Employee Stock Ownership Trust ESOP), in the years ended March 31, 2024 and 2023, respectively.

43. Subsequent Events

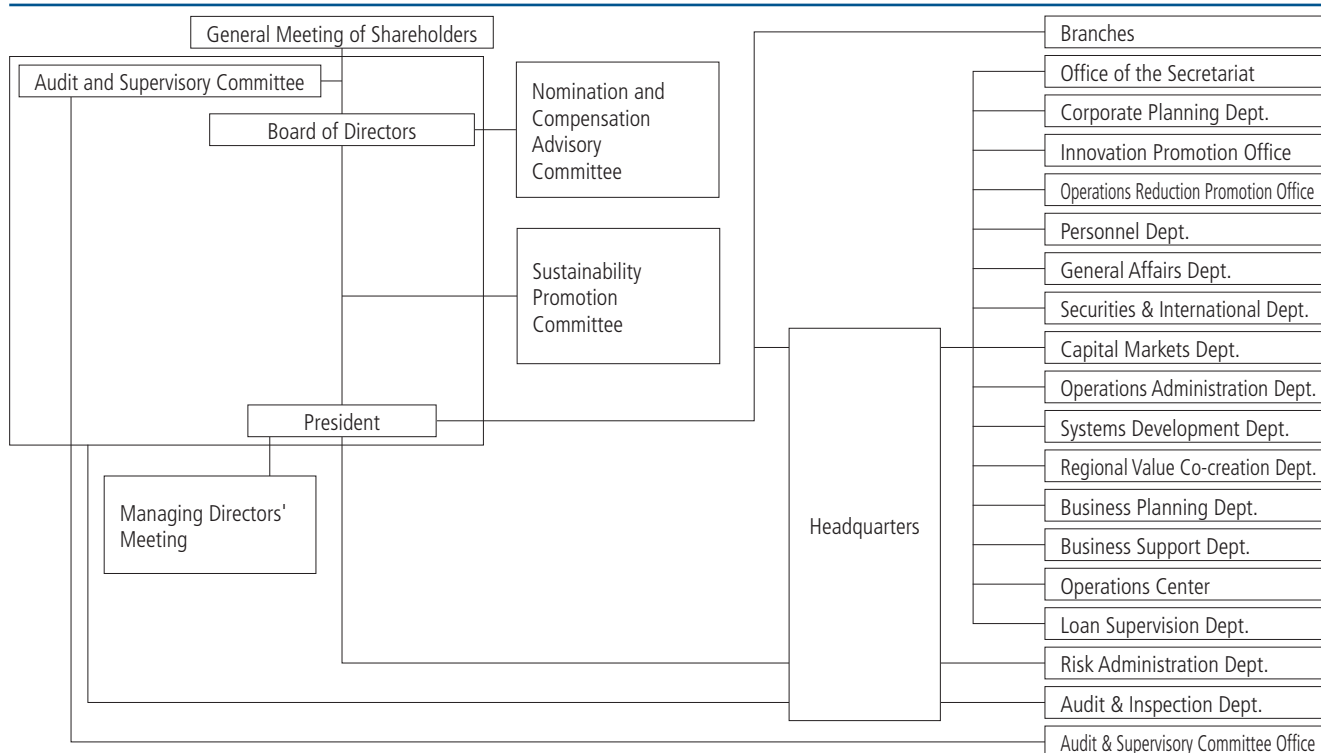

None to report.
